

ANOTHER ROAD INCORPORATED.

Nevada and California Railway Lays Out Proposed Route.

A dispatch from Bakersfield, Cal., says: A certified copy of the articles of incorporation of the Nevada and California railway, a Southern Pacific enterprise have been filed with the County Clerk of Kern County. The company is capitalized at \$15,000,000 of which amount has been subscribed by the five Directors of the corporation, as follows: William F. Herrin, \$227,000; William Hood, \$227,000; Peter F. Dunne, \$1,000; Nicholas F. Smith, \$1,000; Joseph L. Willcutt, \$1,000. According to the articles filed it is the purpose of the company to construct, maintain and operate a line of railroad, consisting of a main line 430 miles in length and a branch line of twenty-seven miles. The main line is to commence at or near Hazen station on the line of the Central Pacific railroad in Churchill county, Nevada, and run then in a general Southerly direction through the counties of Churchill, Lyon and Esmeralda in Nevada, and through the counties of Mono, Inyo and Kern in California, to a point at or near Mojave Station on the line of the Southern Pacific.

The branch line will commence at or near Churchill Station on the present line of the Carson and Colorado railroad in Lyon County, Nevada, and run in a general westerly direction to a point at or near Mound House Station, on the present line of the Virginia and Truckee railroad.

The line of railroad laid out in the articles of incorporation has been in contemplation by the Southern Pacific for many years and several surveys have already been made.

Accident at the Midway.

TONOPAH, June 7.—As the result of a cave-in on the 435-level of the Midway mine here today Hector Wiley sustained injuries from which he cannot recover.

Wiley was engaged timbering a drift from the 435 level and while in a stooping position he was caught by the falling of several tons of ore.

When dug out it was found that he had sustained a broken spine and his entire frame was more or less crushed. He was taken to a hospital but little hope is entertained for his recovery.

At the time of the accident several men were in the drift, but Wiley was the only one injured. The injured man is 50 years of age and has a brother who resides in Sacramento, Cal.

Remembered Nevada.

Dr Stubbs has received a check from William J. Bryan for \$400 for which the regents of the university will act as trustees. This is part of the \$10,000 bequeathed to Mr. Bryan by Philo Sherman Bennett, late of New Haven, Connecticut, to distribute among twenty-five colleges to be selected by Mr. Bryan for the establishment of prize for the best essay on the principles of free government. This money is to be invested by the regents and the interest given each year for the purpose named in the bequest.

Gold Hill Mines Product.

The southern and Gold Hill Mines of the Comstock lode have been good producers of bullion. The mines have yielded as follows:

Crown Point	\$34,000,000
Belcher	36,810,500
Yellow Jacket	19,000,000
Con. Imperial	6,283,500
Confidence	2,000,000
Kentuck	6,500,000
Overman	2,000,000
Empire M. & M. Co.	1,966,100

Total \$108,560,100

Something Doing.

Yesterday Superintendent Broili, Mr. Condit and other members of the Truckee River General Electric Company arrived in this city. A team was secured and the party made a tour of inspection in Carson Valley.

The object of the visit is presumably to secure power rights and other matters connected with establishing electric power for Carson valley.

Some time ago the same party paid Carson valley a visit and it was the general impression that the valley would be supplied with lights and power. There is certainly a great field for the proposed operations and with it cheap power can be given in a number of places where water can be harnessed to an advantage. The interested parties know their business and from the frequency of their visits it is likely that the up-country people will be ablaze with lights in a short period.

MINING INDUSTRY AND BANKING.

Statistics Prove Former More Reliable Than the Latter.

By dint of hammering the mining industry and by classing all investments in stocks of mining companies as among the unprofitable risks, bankers and money lenders succeed in impressing on the minds of investors that mining should be considered in the light of a gambling venture.

Nothing is further from the truth says the San Francisco Mining Review. Mining, and we are now considering legitimate only, is conducted on as safe lines as any other business; safer, in fact, than in the banking business as a rule, for Mrs. Chadwick would have had considerable difficulty in obtaining the funds of a mining company on her personal note and a confidence tale.

Mining companies are as conservative as other business associations, and if there is one business where economy is practiced more than in any other, it is in mining operations. There is a desire on the part of mine managers to open the mines in the most practical way at the very least expense and to save all the values possible.

In April of this year the failures in commercial lines in the United States numbered 833, with liabilities at \$8,056,866. During the same period six banks suspended owing their depositors \$1,559,000.

If 833 mining companies, or even six, had failed in one month, what a howl the financial papers and bankers would make and how the "conservative" money lenders would use the occasion to educate people to lend them money at 3 per cent so that they might invest in mining stocks and other securities which they had warned their depositors against.

Passed Through Carson.

Al. Clark, who forged his father's name to a check for \$1400, bought a horse and buggy in Reno and left that place Sunday morning.

He drove to Carson and left for Genoa Tuesday morning, says the Gazette. It is believed that he will try to cross the mountains and get into California.

Chief Leeper is on his trail and expects to capture the man within the next two days.

Married.

In Carson City, Nevada, June 6, 1905 at the Methodist parsonage, Rev. F. W. Lloyd officiating, Robert F. Bull and Ethel F. McFaul, both of Bijou, Lake Tahoe California.

Miller-Warner.

In Reno Wednesday afternoon, June 7, 1905, Miss Eclista Pearl Warner of Carson City, Nevada, and Edward L. Miller, of Hobart Mills, California, were united in marriage. Rev. S. H. Jones of the Presbyterian Church being the officiating clergyman.

The wedding took place in the McCormack House and was attended only by the relatives and immediate friends of the contracting couple.

Mr. Miller has been a resident of Hobart Mills for three or four years, and is a most estimable young man. The bride is a native of Carson City, and from her youth has been a model girl. Modest, unassuming, domestic in her tastes and devoted to her friends, she will make a worthy companion for Mr. Miller.

MANY IN ONE.

Thousands of Pictures to be Shown Tonight.

To be accurate it is incorrect to say a moving picture when a subject is really composed of many individual pictures placed close together so they may be caused to move one after another in rapid succession past a given point. If it were a picture moving, and one only, it would be gone so quick that no one could see it.

The longest moving picture subject ever put out is "Parsifal" which is composed of 45,000 miniature pictures to be magnified to life size. Each and every one of these 45,000 pictures has been colored by hand in order to show the costumes in the natural colors as represented by the original company that put on the play in the large cities.

The Hagy Scenic Company has their production of "Parsifal" the longest and most expensive moving picture subject in existence, and will put it on at the Opera House tonight. Extra scenes will be presented of the Jap war, and new comedy features.

Reserved seats 50 cents at Steinmentz.

Flanigan Wins Sheep Case.

In the U. S. Circuit Court at San Francisco last Monday Judge Morrow, in the case of County of Sierra vs Flanigan, ordered that mandate of U. S. Supreme Court be filed and spread on the minutes; ordered judgment vacated and action dismissed; ordered judgment for defendant. The same order was made in the case of County of Plumas vs. Wheeler. Suit was brought by the counties named to compel payment of taxes on sheep that had already been assessed in Nevada.

Not a Dead One.

Though deserted by the Railroad Company for several months, Wadsworth is still far from dead. Every available accommodation in the town is now occupied and crowds are passing through every day for the new White Horse district. At least fifty passed through Sunday. Many were from Reno, though quite a number from other portions of the State, as well as California and the East. The reported strike of free gold in the Prithett & Dahl claim has been verified. It is the biggest find in the district and is creating much interest.

Percy Elstner came in from the Southern mining camps last night.

Dick Kirman and Joe Short came over from Reno on yesterday's local.

Gib Briggs is home from a trip in the Goldfield section, where he has valuable claims.

Eugene Howell, is now cashier of the Tonopah Banking Corporation at Tonopah.

Al Clark, a well known young man has fled from Reno, after forging his father's name to a check for \$1,400.

White horse district has three town sites laid off besides Olinghouse. The district is attracting much attention.

An Indian was arrested in Tuscarora a few days ago and sentenced to serve forty days in jail for killing sage chickens out of season.

John McCrimmon, the well known blacksmith of this city, is very sick at his residence in the eastern part of town. He has been sick only a few days but his symptoms are anything but favorable.

SPRING VALLEY FIND.

An Option Taken by Senator George Nixon.

Senator George S. Nixon returned this morning from Spring Valley where he went to look after the reported gold discovery, made at the head of Spring Valley Canyon. Senator Nixon is not wildly excited over the discovery; in fact, he some way gave the impression that the ore blasted out came from a pocket. He said, however, that the find was attractive enough for him and his associates to take a 90-days' option on the property and do a little development work to demonstrate whether the find is the mother lode of the district or simply a stringer. Senator Nixon's associates who held the option with him are George Wingfield, W. C. Noteware, R. C. Moore, H. F. Dangberg and J. P. Fitting.

There have been men put to work on the property and if it develops with work it will be all right. Ninety days is time enough to develop its partial value. Senator Nixon reports that about 50 men were over the ground yesterday on foot, on horseback, and in wagons.—Silver State.

To Bore the Sierras.

It seems almost a certainty that the Southern Pacific Railway Company will bore the much talked of tunnel through the Sierra Nevada mountains. Twenty-seven complete surveys have been made, which will be submitted to a meeting of the Board of Directors to be held in July. The tunnel will not only shorten the line, but miles of snow sheds will be avoided and blockades impossible. The shortening of the line will be necessary in order to compete with the Salt Lake and San Pedro line, which will make the run in twenty-four hours.

Shooting Scrape.

RENO, June 8.—Olinghouse is fast forging to the front as a mining camp. Today the first real gun fight took place and two men are now in bed and in a dangerous condition from the effects. Perkins and a man named Hans became involved in a quarrel over mining ground and the shooting ensued. Both men are badly injured and may die. The quarrel was over the ownership of ground in the new locality.

Peace Looked For.

SAN FRANCISCO, June 3.—From foreign and St. Petersburg dispatches it seems possible that peace terms may be arranged between Russia and Japan. The Russian press is almost unanimous in the demand that such steps be taken, while the ministry is loud in the demand for such a movement. The offers of the United States will likely be called into force and it is not improbable the first move toward the settlement of the difficulties will be called in a very short time. The English and German press is also aiding in the furtherance of peace.

J. A. and Mrs. Yerington were arrivals from San Francisco yesterday.

The Masonic Grand Lodge will meet in this city next Monday, June 12th.

The residence of Oren Vaughan in Ruby Valley, Elko county, was destroyed by fire Sunday, causing a loss of \$3,000.

J. G. Griffith, a middle-aged man, who enticed 14-year old Lola Webb from her home in Reno, has been located in California, and may be brought back for trial.

Sol Summerfield has resigned as Postmaster of Sparks and T. J. Jones has been appointed to the vacancy.

In Reno yesterday Mrs. C. O. Oliver begun suit for divorce from James Oliver. The parties were married in Salt Lake in 1901 and have been residents of Reno for about a year.

Edward Brandon of Reno and Miss Annie Carmiencke of Fallon were married Tuesday evening.

W. H. Lang and L. D. Bleakmore, who are accused of misappropriating the funds of the Mims-Sutro company, by which they were employed at Goldfield, have been arrested in San Francisco.

An interested crowd of spectators spent the day in watching the work on the well in the capitol square yesterday. The tower has been raised to a height of about fifty feet and if all goes well it is expected that boring the well will be commenced early next week.
